Recommendation for Jerry Bennett

To whom it may concern,

Jerry Bennett has worked for Global Vision Eyewear for 7 years as IT/Website Manager. He has exhibited many fine qualities during his tenure here. I consider Jerry to be a hard working, generous, honest, and a dedicated individual. Besides IT and website work, he was always willing to help other people out with projects and computer issues. He also took on the responsibilities of building maintenance, point of contact for printers, phone, and internet service providers.

He was always willing and accommodating to come in after hours or weekends to perform computer maintenance or updates so users would not be interrupted. His flexibility to adapt to urgent matters is commendable.

Based on my work experience with Jerry, I would recommend him for jobs or tasks relating to IT or website design & maintenance.

Sincerely,

Curt Schreur
Controller
Global Vision Eyewear Corp.
